CALL FOR APPOINTMENT

GC Council To Meet On Eve Of Election

On the eve of election, a routine session is expected tonight for Granite City council members. However, several complaints of being "gagged" at last week's brief, 20-minute meeting.

The main order of business is expected to be the presentation of an ordinance to give newly-annexed North Granite residents a polling place for Tuesday's city-ship election. The area is to be placed in the 10th precinct of the Fourth Ward.

The agenda, while it does not mention any further contemplated action on the \$25,000 added fee sewage treatment plant engineering contract, does list the suit against the city to halt payment of \$12,290 a month to United Disposal Corp., St. Louis, for the garbage and trash collection.

The city is receiving a circuit court summons. Plaintiff in the suit is Charles Barth, 1600 Clark avenue, an engineer for an Alton firm, who alleges the \$147,500 contract entered into last year is illegal because the city failed to call for sealed bids. He is seeking an injunction to halt the payments and is seeking the court to void the contract.

"A similar bill has passed the governor or the legislature," Price said.

Federal Bill May Aid State Park Plan In Area

Renewed hope of federal financial aid for establishment of Horseshoe Lake as a recreation park and wild life refuge was pointed out Friday by H. D. Karandjeff, local banker, who has spearheaded the proposed development.

Price said the same state agency "presumably would also be authorized to receive federal outdoor recreation grants-in-aid. States could transfer to subdivisions of state government any portion of the funds granted to them for approved projects that are in accordance with state's comprehensive outdoor recreation plan."

"The bill," Price said, "authorizes federal grants-in-aid on a matched-fund basis to states for planning, acquisition and development of outdoor recreation projects."

Karandjeff said he has forwarded the data to State Rep. Lloyd "Curly" Harris to determine if the state has an existing agency which would cover the federal requirements. If not, Harris will be asked to consider introducing legislation to create such an agency.

Wortman Granted 10-Day Delay In Arraignment

Frank "Buster" Wortman, race boss, was granted a 10-day continuance in his arraignment on a two-count indictment charging him with threatening to harm a telephone company official and to damage company property.

The delay was approved by Circuit Judge Joseph J. Barry Thursday afternoon in Edwardsville when Wortman appeared for arraignment. His attorney, the Saul Cohn of East St. Louis, asked for 30 days in which to file motions to dismiss the indictment.

Wortman, who waited 50 minutes in the courtroom before his case was called, indicated he would plead innocent if the indictment was not dropped. His case has been docketed on the April 22 criminal setting of circuit court.

Claiming his telephone was "bugged", Wortman threatened to inflict physical harm on August F. Roller, business manager of the Collinsville branch of the Illinois Bell Telephone Co., and to damage the exchange, if the alleged wire tap was not removed. Dick H. Mudge, state's attorney, denied that the phone was tapped. Wortman also demanded the unlisted telephone number of Sheriff Barney Frankendorf, according to the indictment.

Wortman is free on \$2000 property bond posted by James Vanzo, Edwardsville tavern operator. He also is at liberty on bonds totaling \$42,500 pending an appeal of a conviction for evading federal income taxes.

The bride is the former Virginia Lee Harlan, a granddaughter of Mrs. L. C. Harlan of Madison, and the late Dr. Harlan.

Miss Harlan, Robt. Richards Are Married In California

The wedding of Miss Virginia Lee Harlan, a granddaughter of Mrs. L. C. Harlan of Madison, and the late Dr. Harlan, and Robert Charles Richards took place Saturday at Westminster Presbyterian Church in Altadena, Calif., where both reside.

The bride is a daughter of Cdr. George M. Harlan, USN (retired) and Mrs. Harlan, of Altadena, Mrs. Richards' parents are Mr. and Mrs. Jack A. Richards of Prairie Village, Kans.

Arrangements of white flowers and lighted candles decorated the church for the 2 p.m. ceremony. Wedding music included the selections "Love Theme" (Grieg), and "How I Love Thee" words by Elizabeth Barrett Browning, followed by the traditional processional and recessional.

Dr. Max M. Morrison, church pastor, and a former member of the board of trustees of Westminster College, officiated, assisted by Rev. Walter J. Lindemann of Lindsay, Calif., a former pastor of the Madison Presbyterian church, who married the bride's parents in Fulton, Mo.

Given in marriage by her father, the former Miss Harlan wore an original Cahill model of peau de soie and imported Irish lace. Designed with a portrait neckline and elbow sleeves, the gown had a controlled bell skirt finished with a short chapel train. Lace trimmed the neckline, the sleeves and the front panels of the skirt. An imported silk illusion veil was attached to a matching lace trimmed pillow hat and the bride's bouquet, and Mrs. Richards wore a cascade of pearls and feathered earrings centered with phenolic or crystals.

Miss Toni Sue Harlan was her sister's maid of honor, serving with three bridesmaids, Mrs. Thomas Gore and Mrs. Richard Ebert of Pasadena, Calif., and Mrs. Dick Jennings of Coronado, Calif. All wore short dresses of azalea pink peau de soie and matching headpieces. They held cascades of ranunculus, shading from light to dark pink.

The rings were carried by Robert Anthony Harlan, young brother of the bride, and another brother, George M. Harlan Jr., lighted the candles.

Thomas Gore was best man for Mr. Richards, and Bill Cox, George Petty and Bruce Chandler were ushers.

A reception for 200 guests was held at the Harlan home, 2011 Mar Vista, where floral decorations of pink and white were used. The bride's table held a five-tiered wedding cake. The newlyweds left after the reception for a honeymoon in northern California. They will be at home after April 15 at Malibu Beach.

The bride attended William Woods College in Fulton, Mo. Mr. Richards received his education in the undergraduate and law schools at the University of Kansas. He is a member of Phi Alpha Theta, legal, and Phi Delta Theta, social fraternities.

Among the guests at the wedding were Mrs. L. C. Harlan, and Miss Marian Harlan of Madison; the bridegroom's parents; Mr. and Mrs. Cecil Pointer, former Granite Cityans now residing in Garden Grove, Calif., the maternal grandparents, Mr. and Mrs. Edward Krutner and family of Fulton, Mo., and Rev. and Mrs. Lindemann of Lindsay, Calif.

Senate Proposes Penny Boost In State's Cigaret Tax

(Special from Springfield)

A one cent increase per pack in the state cigarette tax to provide more money for recreational purposes is proposed in a bill introduced in the Senate of the Illinois General Assembly last week. It was sponsored by Sen. Gordon Kerr (R-Brookport) who said it will raise \$13 million additional revenue annually.

The measure would increase the present tax of four cents per pack to five cents and the revenue would go to the State Conservation Department for construction of outdoor recreational facilities. It includes an appropriation of \$6½ million.

A series of Senate bills would authorize an interchange of prisoners by wardens or superintendents of any penal institutions in counties, townships, villages or incorporated towns; and permit a prisoner to work out a fine at the rate of \$5 a day. Sen. Dwight Friedrich (R-Centralia) was one of several sponsors. Other bills in the series provided:

Salaries of members of the state Board of Pardons and Paroles would be increased to \$12,000 a year and provide six

year terms until after January 1973, when members would be required to serve full time. Sen. Alan J. Dixon (D-Belleview) and Paul Simon (D-Troy) were authors of the proposal. The measure was sent to the Senate Committee on Public Welfare.

Another bill co-sponsored by Sen. Dixon and Simon would require owners of automobile junk yards, especially those along highways, to shield the yards from public sight by enclosing the premises with a fence at least ten feet high in height. The bill was sent to the Senate Committee on Highways and Traffic Regulations.

Also introduced last week was a bill to create a Pesticides Advisory and Control Board to regulate businesses engaged in the custom application of pesticides in the State Agriculture Department. Directors of State Department of Agriculture, Health and Conservation, the head of the State Natural History Survey and three named by the Governor would comprise the board.

The proposal, if enacted into law, would become effective Jan. 2, 1964. Co-sponsors of the legislation include Reps. Lloyd Kennedy (D-Alton) and Lloyd "Curly" Harris (D-Granite City).

Persons engaged in the business of issuing trading stamps to merchants would be licensed and regulated by the State Revenue Department under a proposed bill that includes a \$100 license fee and for filing a bond. It was sent to the House Judiciary Committee.

Legislators' Pay, Allowance. Illinois state legislators would receive an extra \$250 per biennium as expense money in addition to their \$6,000 annual salary under a bill offered in the House of the General Assembly. Chief author of the bill was Rep. Paul Powell (D-Vienna). The measure was advanced to the Senate last week reading without committee reference, to House passage.

If the House power on the proposal means anything in terms until after January 1973, when members would be required to serve full time. Sen. Alan J. Dixon (D-Belleview) and Paul Simon (D-Troy) were authors of the proposal. The measure was sent to the Senate Committee on Public Welfare.

About this question: "My sister had a serious fire at her home and feels that her Homeowners Policy should pay her additional living expense away from home until the insurance is repaired. Her insurance agent is an employee of the insuring company and agrees with the company that her home is 'not livable,' and that no 'additional living expense' should be paid. Would a local independent representative with his client rather than the company?"

AN OPEN LETTER

TO THE CITIZENS OF THE 8th WARD

It has been my AIM TO GIVE MY CONSTITUENTS THE TYPE OF REPRESENTATION WHICH THEY DESERVE. I feel that attendance at Council meetings is imperative for the people of the 8th Ward to be properly represented. During the past four years I have sincerely tried to give the people of the 8th Ward and the people of Granite City, in fulfilling my obligations as an alderman and a representative of the voters it has been necessary for me to take a definite stand on various controversial issues. WHEN ONE STANDS UP FOR ONE'S CONVICTIONS, CRITICISM NATURALLY FOLLOWS, AND I HAVE ACCEPTED CRITICISM AS THE TOKEN OF A WORKING ALDERMAN.

I have a working program for the future improvements of all areas of the 8th Ward. My pledge to you is to work diligently toward the future improvement of all areas in the Eighth Ward and our city.

It has been an interesting and enlightening privilege to have served you for the past four years. I am sure that the experience I have gained has equipped me to serve you well and sincerely for the next four years.

I will greatly appreciate your expression of trust and approval by your vote and support of my candidacy for re-election on Tuesday, April 2, 1963.

Signed,
ALDERMAN FRANK VESCI

Dear Friends: So many false statements concerning my record have appeared in the brochures of my opponents that I would like to take this opportunity to present to the people I have represented on the City Council for the past four years a true picture of my service as a Granite City alderman.

One pamphlet being circulated states that no MFT money has been spent on street improvements in the 8th Ward in the last four years. While no money has been spent on street construction, \$220,000 HAS BEEN APPROPRIATED FOR THE IMPROVEMENT OF THE FOLLOWING STREETS IN THE 8th WARD: WOODLAWN AVE., MARTVILLE RD., WARSH AVE., CLARK AVE., COTTAGE AVE., CARROLL AVE., LINCOLN AVE., AND JOHNSON RD. All these projects have been approved by the State as the major task. The above mentioned streets first had to be designated as arterial streets before State funds could be utilized for their improvement. One year was spent in obtaining this approval. Then a resolution has to be passed by the Council and approved by the State appropriating funds for the improvement of each street. This, too, was a time-consuming task, for each alderman his similar projects for his ward for which he is anxious to receive Council State approval. I believe the alderman must wait his turn. PLEASE REMEMBER THAT ALL OF THESE PROJECTS ARE IN THE HOPIER, SO TO SPEAK, AND ALL THE PRELIMINARY STEPS HAVE BEEN TAKEN TO BRING THESE IMPROVEMENTS TO FULL REALIZATION.

VARIOUS accusations have also been made regarding my stand on the \$10,000,000 term and bond issue. I am a firm believer in the DEMOCRATIC PRINCIPLE THAT THE PEOPLE, NOT A CHOSEN FEW, SHOULD BE ALLOWED TO DECIDE HOW MUCH MONEY SHOULD BE SPENT. A referendum was the only solution in this issue. After the bond issue was defeated by the polls and because the State Department of Public Health demands that the City take steps to abate the pollution of the Mississippi River I was appointed Chairman of the aldermanic committee designated to study the problem and recommend a solution. This committee has worked diligently to find a

remedy which would be beneficial to all and which would place the least possible financial burden on the individual taxpayer.

I have also been criticized for excessive expenditures of the City money for emergency repairs to the existing sanitary sewers. The City must meet emergencies, however, just as the individual. If the plumbing system in an individual's home breaks down, he calls a plumber and has the system repaired. He takes emergency measures immediately. He cannot sit and contemplate if he should have his plumbing repaired or if he should build a new home—nor if he is concerned with the health and welfare of his family. Much the same situation existed when the sanitary sewer lines broke in the 8th Ward. The health and welfare of the people of the 8th Ward was at stake.

It has been my AIM TO GIVE MY CONSTITUENTS THE TYPE OF REPRESENTATION WHICH THEY DESERVE. I feel that attendance at Council meetings is imperative for the people of the 8th Ward to be properly represented. The system will take time to develop, however, and will require more than a year, it was pointed out. Operating costs will increase, and part-time assessors in small townships expect to have difficulty in obtaining sufficient funds from their town boards to do the work, it was noted.

James Gorman, Alton assessor and president of the Madison County Assessors' Association, reported on the fifth annual workshop of the Illinois Assessors Association held at Peoria and attended by nine assessors and one deputy assessor from Madison county.

The basic requirement of responsible citizenship is the informed, intelligent casting of the ballot for elected representatives in government. In tomorrow's election, the intelligence of the voters in fulfilling this requirement will decide the future of Granite City. With so much at stake, all votes must be free from petty prejudices and personal interest. The candidates for governmental leadership must be compared on their records of proven ability, integrity and effective community service.

After the comparisons have been made, the votes must be cast with a single purpose in mind, electing the best qualified men for the job to be done.

Bi-State Agency Outlines Plans For Transit System

The new public ownership of mass transit facilities throughout the Illinois-Missouri metropolitan area was observed at a breakfast meeting of civic leaders from the two-state area at the Hotel Statler-Hilton this morning, sponsored by the Bi-State Development Agency.

Officially, the Bi-State Transit System came into being at 12:01 a.m. today, when the physical properties of 15 privately-owned transit companies were acquired by the Bi-State Agency.

Leo A. Fisher, chairman of the Bi-State Agency, in speaking at today's meeting said, "Public ownership of transit by our agency completes a task that began nearly three years ago and represents a major step toward a vital area goal—the creation of single, unified system."

Cooperative Effort

"Our agency deeply appreciates the cooperation of everyone who has been involved, including the management and owners of the companies, the unions representing their employees, the civic and business leadership of our total community and the municipal and county governments for their advance of \$100,000 to develop our appraisal and financing plans."

"In effect, today the citizens of our area become the owners of their transit facilities. It becomes their system; they will buy it on time through the farebox. As their agent, we want to assure them and all of the communities involved that every effort will be made to develop the best possible transit system within the revenues available."

"The system's success and the degree to which it contributes to community progress will depend in large measure on the extent to which the citizens, its new owners, patronize it."

"In addition, it will depend on creative future community planning in such areas as rapid transit and other means to facilitate the speed and convenience of public transit service."

Tax Relief Efficiency

"We also believe the concept of combining public ownership with private management is a sound one in the field of metropolitan transit. It provides essential tax relief and still retains the efficiency of private operation. We have retained a management group of high professional competence and long experience in the transit field."

"The new Bi-State system will face challenging problems and opportunities. We are confident that the problems will be solved and that under the new ownership and management, our entire bi-state community can look forward to improved mass transportation service."

"The full achievement of an integrated system is a task of substantial magnitude. Necessarily, at the outset, the present routes and fares must be continued. Changes, improvements and unification will be accomplished under a gradual, staged program extending over a period of time."

Later 'System' Transfer

"Within the next two to three weeks, we expect to have an interim fare plan in effect. The

plan will permit interchange of passengers from one 'system company' to another with the payment of a nominal transfer charge. It will eliminate the present requirement to pay two full fares."

The chairman said the basic objectives are to achieve—(1) the integration and coordination of routes throughout the area; (2) inauguration of new and improved services; (3) consolidation of personnel, equipment and functions; (4) establishment of a system-wide fare structure; and (5) planning and study of the possibilities for rapid transit, including a careful assessment of the Gilman recommendations in this field.

"According to present plans," Fisher said, "the integration and coordination of transit routes would move forward in steps at each phase of the study is completed."

The fundamental goal will be to establish a pattern of routes throughout the city of St. Louis and St. Louis, Madison and St. Clair counties that is based on rider needs without regard to political boundaries. The present closed door operation of certain lines, now required by the present company competition, will cease.

"Parallel and duplicate operations will be consolidated. 'Revolving for service improvement generally will be analyzed, and changes will be made wherever they contribute to the added effectiveness of the service.'"

"Ample public notice will be given prior to the adoption of each of these steps," Fisher said. The Bi-State board believes "attractive service improvement" can be developed through elimination of transfers between vehicles to provide faster and more convenient travel.

Express Buses In Ill.

Expansion of the express bus system is planned with lines for both rush-hour and shopper patrons throughout Madison and St. Clair counties.

Special services also are to be expanded for sporting events and large-scale community attractions.

An internal task is to coordinate and train personnel. Buses and other equipment is to be reassigned, standardized, marked and painted uniformly, adding air-conditioned units.

"The Bi-State Transit System," Fisher said, "will have ability to experiment with new fares and with special ride promotion features."

Rapid Transit Plan

The rapid transit plan to speed the service is expected to add substantial rider appeal. New expressways will be utilized, and consideration will be given the possibilities of rail and all other form of rapid transit.

"We also will be alert to any possibility of federal aid. A bill pending in Congress now joins the way toward helping local communities develop and improve their transit systems," Fisher added.

☒ Samuel D. Whitmer

Candidate For Re-Election As Alderman 2nd Ward

Welcome aboard!

...you are now riding YOUR BI-STATE TRANSIT SYSTEM

That is the greeting of the day on buses throughout our two-state metropolitan community: As of Monday, April 1, your Missouri-Illinois Bi-State Development Agency purchased the privately-owned transit companies serving the area.

Now, we have a single transit system... serving the City of St. Louis, St. Louis County, Madison County, and St. Clair County... and owned by the citizens through their Bi-State Agency.

We have a big job ahead to make this a unified system. You will not see many changes right away. It takes a great deal of study and work to put together the equipment and the people and the routes and the fares of the different companies.

But the job will be done. The goal of your BI-STATE TRANSIT SYSTEM is to:

- Coordinate transit lines throughout the two-state area.
- Provide a uniform, system-wide fare structure.
- Give improved service... and new service.

In the near future—before the end of the month—we expect to make a temporary change in some fares. Today, those of you who transfer from the bus of one company to that of another have to pay two full fares. The temporary plan will reduce the cost of those transfers. This is just a first step. Others will follow as soon as they can be developed.

We believe BI-STATE TRANSIT can become the finest area-wide system in the country.

It will take hard work, and the people of BI-STATE TRANSIT—in the shops and offices and in the driver's seats—are prepared to give their best.

It also will take the help, cooperation, and patronage of its new owners: the citizens of our two-state metropolitan community.

Yes, you own BI-STATE TRANSIT SYSTEM. You are buying it "on time" through the farebox. The more you use it, the stronger it will become. The more you use it, the better the service it can provide.

So we all share in the job of building an outstanding system. As the major changes in routes, fares, and service come along later this year, we hope they will meet with your approval. We hope they will stimulate you and your neighbors to use transit more and more and more.

Our "welcome aboard" is deeply sincere. Your riding is the vital key to the success of your BI-STATE TRANSIT SYSTEM.

- David Johnston, who lives in East St. Louis, was paid \$69,929 as city engineer in 1962 under contract allowing him substantially higher fees than those established by Illinois Society of Professional Engineers.
- Some aldermen voted against fluoridation despite public approval by referendum; would have reduced tooth cavities among children up to 60%.
- This would have eliminated sewer backups, flooding, etc., as well as river pollution.
- This fee, plus other "unknown" costs, is asked by out-of-town engineering firm for river pollution study only. Would not be necessary if local firm, familiar with Granite City sewers, does the work.
- This money would be diverted from use on existing public streets to build roadway to a proposed private shopping center, details of which have never been disclosed or firmed up.
- Contract with St. Louis firm was "negotiated" with minor saving despite two-thirds reduction in manpower.
- Three regular meetings are held monthly at \$25 each; no reduction in pay for absenteeism. For the May 1961-February 1963 period, there were 66 regular and six special meetings.
- No control by city over use of this additional allowance, nor is an expense itemization required. Available to all aldermen but some do not take it.

**Warriors Get Away To Fast Start,
Club Triad 13-2, Nip Staunton 6-4**

Doubleheaders, which were to involve a split-up Granite City high school varsity baseball club Saturday were washed out, but the rain failed to dampen the spirits of Coach Joe Fedora and his diamond Warriors, who got away to a quick start late last week with a pair of victories.

Granite City pounded Triad 13-2 in the GCHS opener Thursday at the consolidated Troy-St.

Jacob-Marine school's diamond and then got timely long-ball hitting here Friday to nip Staunton 6-4 in a game called because of darkness after five innings.

Saturday's games — two here with Cahokia and a pair at St. Peter & Paul of Waterloo — were rained out, and the Warriors were hoping sun and wind would dry the No. 1 field at Wilson Park in time for this afternoon's 4 o'clock date with Assumption of East St. Louis.

Ss. Peter & Paul will not be rescheduled; the Cahokia doubleheader is to be played here on Saturday, April 20.

Tomorrow Granite City will play the first of its 12 Southwestern Conference games, with Wood River the 4 p.m. opponent, again at Wilson Park.

Kofahl and Papp worked two scoreless innings before the darkness closed in. Bob Ketner had a flyball triple in the fifth, but it was wasted.

Paste Triad In O'neer

The Warriors got away on the right foot Thursday afternoon when they jumped on three Triad hurlers for nine hits in a 13-2 victory over the Knights at Triad.

Granite City wrapped it up with a five-run sixth, with sophomore catcher Joe Hauptman's

Warrior hits were evenly divided, with nobody collecting more than one. Four GCHS hurlers held Triad to only one safety

Lefthander Terry Kofahl started, Bill Lierman came on in fifth and Perry Tayon in the seventh. Gary Giger, the Triad starter, was touched for five runs in two innings and was the losing pitcher.

Hit-And-Run Accident

A hit-and-run driver struck a power pole on Nameoki road just north of Pontoon road about 12:30 a.m. Friday and knocked the transformer loose from its mounting. Three primary wires were knocked down by the impact. There was no danger, however, an Illinois Power Co. spokesman said, because of the low voltage.

The auto continued south on Nameoki road and hit the stop sign at the corner. Granite City police are investigating.

Bergfield Not Committeeman
The biographical sketch for Third Ward two-year candidate J. D. "Smiley" Bergfield mentioned that he was a precinct committeeman. He held a precinct post six years ago and not at present.

ONE OF FIRST COPIES of the newest edition of "Clubs and Organizations of the Tri-Cities," an informational booklet prepared by the Chamber of Commerce, is shown being presented to Mrs. Hilda Schroeder (left) of Holiday Service, a C. Electric Firm Struck Twice By Burglars

Guarantee Electric Co., 15th street and Grand avenue, was struck twice by burglars since Thursday, according to police authorities, who reported that there were eight thefts and burglaries during the weekend.

Workmen at Guarantee Electric went into the yard Thursday afternoon for a supply of copper wire from a roll kept there and found the roll had been put over the fence. About 250 feet of the rubber-covered wire worth \$180 was missing.

A quantity of scrap wire and copper lugs also missing from a bin at the side of the building. The building had not been entered, police said.

The firm reported today that 300 feet of insulated cable, valued at \$250, was stolen during the weekend. The cable was taken from a bin at the side of the building. The building had not been entered, police said.

Machine Stolen
Burglars carried off a cigar machine and broke into a pinball machine at Ray's Four Corner restaurant on U.S. By-Pass 40-48 at Highway 67. It was reported to county authorities Saturday morning. An undischarged amount of change was taken from the pinball machine. The burglary was reported by Ray Gottschall. Entry was made by breaking the glass in the front door.

Home Burglarized
The home of Everett Brady, 14 Mercer drive, was burglarized Thursday evening. A pair of platinum cuff links, \$4 in cash and a boy's wallet containing nearly \$2 were stolen.

William Atwood, son-in-law of Brady, told police he thought he heard someone leave by the back door as he arrived. He checked and found the door open. He was, however, unable to determine at the time if anything was missing. When Brady arrived home later he confirmed the burglary.

Welding Set Stolen
A welding outfit, including torches and regulators, was stolen last week from an auto in the backyard at the home of Dean Johnston, 1325 Edwardsville road. It was reported to police yesterday.

Wallet Taken From Home
A wallet containing \$30 was stolen from the home of Mrs. William Ruemler, 2428 Benton street, between 4:30 and 6 p.m. Friday. It was reported to police. The wallet was taken from a purse.

Auto Battery Stolen
Clayton Harrison, 25, of 922 Grand avenue, Madison, proprietor of Jug's tavern, reported that a battery was stolen from his 1959 auto between 9 p.m.

Chamber Issuing New Edition of Club List

The new edition of the annual Chamber of Commerce listing of Quad-City clubs and organizations is "off the press."

The booklet calls the roll of 180 local groups, providing the name of the current president, the address at which the officers or group can be contacted, the city where it is located and the telephone number.

The 1963 listing is available free to members or for \$2 to non-members of the C. C. Manager, Harlan D. Doherty reports. Distribution was started late last week.

The data covers 11 pages, beginning with "Alcoholics Anonymous" and ending with the YMCA. All local municipalities are represented.

Worthen Denies Charge In 6th Ward Handbill
A handbill distributed in the Sixth Ward labeling James "Red" Worthen as a levee board candidate for alderman was termed "ridiculous" by Worthen. The handbill, which contained the signature of a William "Bill" Russell called Worthen a levee board "stooge."

"I have been interested in the activities of the levee board for several years," Worthen said, "and have been actively opposed to the shenanigans of the board, as many persons in Granite City well know."

"I was the only opposing force to the levee board's pollution statement plans for Granite City," he added. "I recall the levee board's \$147,000 contract for repairs to the Terrace lane sewers when the low bid was \$67,000. Through our opposition we were successful in getting the low bidder the job."

"The handbill obviously contains everything but the truth. It looks like collusion on the part of my two major opponents," he referred to incumbent Sam Shackelford and Kenneth Hartberger.

"This is the first time I have been a candidate with any kind of support whatsoever," Worthen said. City supporters include five precinct committeemen and one former precinct committeeman.

Relatives of Russell appeared at the Press-Record office Saturday morning and denied that he lived at the address given on the handbill. "He's a minor, and he does not live at the address given; that's my home," an aunt said.

Mrs. Gertrude Young, 80, Dies In Hospital

Mrs. Gertrude M. Young, 80, of 624 Lincoln avenue, Venice, died at 9:10 p.m. Sunday at St. Elizabeth Hospital where she was taken 10 hours earlier. She was ill 17 days.

Born in Logansport, Ind., she lived in Venice 15 years and formerly resided in East St. Louis. She had been employed as a packer for the Busy Bee Candy Co. before retiring 25 years ago. She was a member of St. Mark's Church.

She is survived by a daughter, Mrs. Alfred Hazel Wiedower, Venice, with whom she lived, and one grandchild.

An obituary notice appears elsewhere in this issue.

Man Hinders Firemen, Arrested In Madison

James Clifford Stuart, 23, of 310 Grand avenue, Madison, was charged with hindering and obstructing firemen as they fought a fire in a shed at the rear of Stuart's home at 11:22 p.m. Friday.

The complaint was signed by E. J. Miller, fire chief. Stuart, a checker weigher at Granite City Steel Co., was released on \$25 bond pending a hearing before Police Magistrate John Bridick.

Madison firemen also extinguished two weed fires at 2:11 a.m. Friday in the 800 block of West Washington street and at 11:29 a.m. at 2024 McCasland avenue.
